

GPK-32 Inspection Robot

Features

Remote Inspection

Inspect hard to access areas remotely. With a compact and lightweight frame, the GPK-32 can fit into otherwise inaccessible spaces.

Record in HD

With a 1080p HD camera and powerful LED lights the GPK-32 allows for detailed inspections. Additionally, you have the ability to record HD video to review later. Video recorded directly onto an SD card in the camera for full HD viewing. The camera keeps recording even if the wireless signal drops.

Swappable Battery

The GPK-32 is powered by a removable DeWalt 20v Lithium Battery. A single battery allows for up to two hours of constant use. This makes it easy to swap and charge!

Extensive Range

Range of up 500 feet (based on line of sight). Obstructions can lower the operational range. 2.4GHz wireless remote for control. Wireless video is sent over 5.8Ghz to the included 7-inch LCD screen.

Specifications

Operation Time	2 hours of continuous use
Weight	8 pounds (3.63kg)
Height	6.5 inches (16.5cm)
Width	9.5 inches (24.1cm)
Length	12.5 inches (31.75cm)
Speed	Up to 85 feet per minute
Payload	Up to 5 pounds

Optional Features

Remote Camera Control

Start and stop video record and take pictures remotely.

Wheelie Bar

The wheelie bar improves the GPK-32's ability to climb obstacles without rolling over, such as rocks, boards, pipes, and more.

Wheelie Bars

Roll Cage

The roll cage helps protect the camera in the event of a rollover. Can be removed to allow the robot to access tighter spaces.

Roll Cage

Debris Deflectors

Reduces the chance of entanglement in loose wires, insulation, and other common obstructions.

Debris Deflectors
