

## MLT Surveillance Platform

---

### MLT 310F Configuration

The SuperDroid Robots MLT 310F Surveillance Robot is a small rugged robot that can easily fit in backpack or carrying case. The robot weighs less than 8lbs. The treaded design and rear flipper arms allow this robot to climb many obstacles other throwable robots can't touch!

## Robot Specifications

- Enclosed treaded robot chassis weighs less than 8lbs.
- Total height: ~4.4 inches
- Total width: ~9.5 inches
- Total length: ~12.75 inches
- Ground clearance: ~1 inches
- Flipper Arm/Stabilizer arm can be used to climb over objects up to 10 inches high. The arm can be used as a wheelie bar or stabilizer. Arm can self-right the robot if inverted. A skilled operator can climb household stairs.
- Flipper arm can also be used for tilting camera. Panning achieved by driving/rotating robot.
- Run time up to 4 hours depending on use
- Variable speed up to 120 feet per minute.
- Chassis painted tactical black.

## Operator Control Unit

- Integrated two-axis joysticks
- 5" TFT LCD
- Fully integrated 2.4GHz data and 900 MHz video radios
- Lithium-ion battery
- Light-weight
- Ergonomic chassis
- Durable heavy gauge aluminum
- Integrated radio

### Standard Features and Options:

- **Charger and Storage Case:** Multiple chargers mounted inside Pelican foam lined case for easy storage and operation. The typical recharge time is 3-4 hours.
- **High intensity LED Lights:** The MLT comes standard with an IR camera for night vision. For added visibility this option adds high intensity LED lights mounted to the nose of the robot next to the camera. The lights are wired into the robot's power and can be controlled by the OCU.
- **Microphone:** The MLT can have a microphone added to it along with a high gain amplifier. The audio will then be relayed back to the remote with the video transmitter and receiver. The OCU will be modified to include a standard headphone jack.

### Available Options and Upgrades:

- **Tactical Remote with a 7 inch LCD:** Replaces the smaller screen and makes viewing details easier
- **Secondary Monitoring Station**
  - Can be used as a 2nd set of eyes for a 2nd entry team or command monitoring station.
  - Includes a high gain Yagi antenna that can be used for longer range.
  - Includes an extra RCA output for attaching another monitor.
- **LED Lighting, Microphone:** Although standard options, these can be removed for additional savings if the features are not needed.

### Applications:

- **Quiet and quick surveillance** – This robot is compact and lightweight, making it easily deployable.
- **Entry into difficult areas:** - This robot is drop resistant up to 10 feet so it can be tossed into rooms, onto balconies or roof tops, etc. The treaded design and rear flipper arms allow this robot to climb many obstacles that often stop other compact robots.
- **Clearing rooms remotely** – Clear rooms and buildings remotely with mobile audio and video surveillance.
- **Hostage and hazardous surveillance** - Survey hostile/hazardous situations staying out of harm's way.
